Stage Type: Scenario Based	Start / Stop: Shot Timer / Last Shot – 180 Max Time
Targets: 4 Paper	Scoring: TPC - Best 2 Hits on Paper

Course Description: You are on day shift and were dispatched to a single car motor vehicle accident. As you pulled up you saw several subjects in and around the vehicle and as you began to approach the driver's door abruptly opened. The driver exited with a gun in his hand and as you began to withdraw while drawing your handgun the driver fired. The bullet struck the bicep of your Primary Arm causing you to drop your handgun and trip and fall backwards. You came to rest against the front of the cruiser with your Primary arm and hand totally disabled.

On the Start Signal, using **ONLY YOUR SUPPORT HAND**, retrieve your handgun and engage Threat Targets 1 thru 4 from within the Firing Area.

- You may **NOT** use your Primary hand or arm to get up from the ground, doing so will incur one Procedural Penalty.
- Firing other than one handed with the Support Hand will result in one Procedural Penalty **PER shot fired**.
- For safety reasons, in the event of an empty gun or malfunction the competitor **WILL NOT** reload or clear the malfunction using one-handed incapacitation clearing techniques. The competitor will use **TWO HANDS** to reload or clear the malfunction, then revert back to one hand and complete the course of fire.
